Group Discussion Report

Topic: Advantages and Disadvantages of Genetically Modified Organisms (GMOs).

Faculty Coordinator: Dr. Sunita S. Sakure

Student coordinators: Mr. Tejas Shinde, Ms. Komal Zurunge

Department: Microbiology (Science) **Class:** M.Sc. II Microbiology

On 18th January 2022, Group Discussion was conducted on the topic “Advantages and Disadvantages of Genetically Modified Organisms (GMO)” in an online mode on the Zoom platform. This group discussion was the part of credit wise evaluation of the Subject MB- 702 Molecular biology.

At the beginning of the session, all the participants of M.Sc. II seemed hesitant to express their opinion. Still, soon the discussion picked up the pace, the purpose of the debate, which was to encourage students to speak up and boost their confidence, was fulfilled.

The discussion was between two groups. First group highlighted the advantages and second group highlighted the disadvantages of GMOs. In the beginning, the topic was opened for discussion by Dr. Sakure madam, regarding genetically modified organisms.

The first group covered the topics regarding advantages which includes, increase crop yield, reduction in global hunger problem, productivity of GMOs, increase resistance, longer shelf life, better yields of meat, eggs and milk, secondary metabolites, pharmaceuticals etc. while the second group talked about several disadvantages of GMOs like allergic reactions, safety issues, religious concern, antibiotic resistance, spread of serious pandemics and epidemics, unintended harm to other organisms, reduced effectiveness of pesticides etc.

At last, madam tried to draw the attention of the students to summarize and conclude the GD and highlighted all the key topics discussed by both the groups.

Sunita Sakure is inviting you to a scheduled Zoom meeting.

Topic: M.Sc II MB 702 evaluation

Time: Jan 18, 2022 11:00 AM Mumbai, Kolkata, New Delhi
